Middle Level Developer
Figures | 06/2021 - Present

Figures is a German Web Design agency specializing in scrolly-telling websites & data visualization.

During this period, I developed 11 websites (2 of which won an award) & 2 iFrames immersive 3D experiences, using TypeScript, React, Gatsby, GraphQL, Astro, Vite.js, Node.js, Three.js, Styled Components, Tailwind CSS, Redux...

My responsibilities, for this role include:
- Create components for websites and libraries
- Implement responsive designs into mobile-first cross-platform websites
- Add and maintain content management tools (Decap CMS, Craft CMS)
- Use CI/CD tools (GitHub, Netlify) for continuous deployment
- Add Analytics to our projects (Matomo)
- Website audit (performance & accessibility)
- Create interactive data visualizations (D3.js)
- Performing code review & Quality Assurance
- Cross-browser debugging & testing (manual & automated with Jest)
- Refactor code & optimize workflow
- Organize a workshop on accessibility
- Create Node.js processing pipeline for assets

Full Stack Dev Bootcamp
O'clock | 10/2020 - 03/2021

I learned about Scrum methodology, HTML, CSS, JavaScript, GitHub, Node.js, NPM, Yarn, EJS, APIs, Express, SQL, Postgres, Sequelize, Webpack, ESLint, Babel, SASS, React & Redux.

Art Director
Ufomammoot | 06/2017 - 09/2020

As an Art Director, I worked on every stage of the design phase (brainstorming, creating concepts, illustrations, 3D models, creating and updating the UI + UX, Art Direction...) for various digital experiences (websites, Augmented Reality, web banners, CLP, touching table...) for clients like Netflix, Adidas, and eBay. During my last year at the agency, I gained more skills in mentorship by tutoring our recruit.
